**March 15 - 3:30-5:00**

**March 29 - 3:30-5:00**

**April 12 - 3:30-5:00**

Southwest Elementary School invites all K-4 students and parents to come and enjoy our "Learning Lab Night". We will be opening our computer labs after school hours once a month to encourage student literacy and math practice and engagement. Feel free to come anytime during the scheduled events. During the Learning Lab Night you can choose between several computer/iPad reading and math skill activities to do with your child. Students can also work towards their AR reading goal. We hope to see you at one of our Learning Lab Nights. We strongly believe that parent involvement and interest is key in helping improve your child's skills and performance.
